

This project is co-financed by the European Union and the Republic of Turkey.

“Technical Assistance for Developed Analytical Basis for Formulating Strategies and Actions toward Low Carbon Development”
TR2013/0327.05.01-01/001

**Activity 1.1.1 Status Report preparation
Working Group Workshop**
Nov 2, 2017
Holiday Inn Hotel, Ankara

Review and analyse the status of the existing relevant national climate related policies, plans, and strategies and related legislation

Topics/questions to be discussed

1. Do existing climate policies/strategies allow Turkey to meet international commitments/requirements under:
 - 1.1. UNFCCC/Paris Agreement
 - 1.2. EU pre-accession process
 - 1.3. UN's Sustainable Development Agenda (SDG 8 and 13)
2. Do existing climate policies/strategies allow Turkey to achieve national/sectoral environmental and low carbon development goals?
3. Do existing climate policies/strategies are consistent with sector's development objectives related to GHG mitigation in building, waste, transportation and agriculture sectors?
4. Do 22 climate related policies/strategies (please see Summary of initial findings table attached) include most important relevant documents?
5. Do any additional existing national or sectoral policy/strategy documents should be also reviewed?
6. Do you know about any relevant and important national or sectoral policy/strategy documents currently under preparation or planning?
7. What is your opinion/suggestions regarding necessity of the preparation of specific national or sectoral low carbon development policy/strategy documents?
